FORTNITE has come a long way from the clunky, blocky characters and difficult user interface of its past and now serves as a global gaming and game development and programming platform, with hundreds of thousands of games available from dedicated, young creators. While FORTNITE itself is free-to-play, and many games don't require players to use real-world currency or the in-game V BUCKS, some games include purchasable items, add-ons, and other microtransactions like game passes. For players who don't want to spend real money on such microtransactions, there is still so much great free content available.

A game called Pet Heroes takes you on an adventure with a few pet sidekicks who will fight for you in battle. It will fly around beside you and adds a little something extra to your gameplay as you are not stuck with a single animal from the start.

The most recent reports show that FORTNITE has a player count of roughly 150 million regular players, and it is the most popular game for gamers under the age of 13.
