TOOL 1

Utilising social partnerships

Implementation steps

- Identify existing civil society organisations (CSOs) interested in supporting ATVET initiatives
- If necessary, support the identified CSOs so that they are able to become involved with ATVET
- Organise a round table to bring all stakeholders together to establish a sustainable method of collaboration
- Include identified NGOs and CSOs as social partners in the ATVET policy dialogues at regional and national levels

TOOL 2

Raising awareness through advocacy for ATVET

Implementation steps

- Develop an effective communications and advocacy strategy to raise ATVET awareness with the following objectives:
  - To increase awareness around ATVET at central and regional levels
  - To build credibility with and to ensure the support of different national and international partners
  - To mobilise stakeholders at different levels
- Involve private and social partners during the development of the communications strategy
- Organise sensitisation campaigns and workshops at national and regional levels to raise awareness of ATVET and to muster support from different stakeholders

TOOL 3

Organising multi-funding lines for ATVET

Implementation steps

- Support ATVET innovations through improved and modernised training and content delivery
- Raise the awareness of multiple partners (public, private, social and donor) and sensitise them to the new ATVET system
- Promote and increase the number of initiatives undertaken by social and private partners to bolster financial support for ATVET
- At policy level, aim to utilise multiple financial tools (government levies and support from the private sector, social partners and donors) to ensure sustainable financing for ATVET

TOOL 4

Reforming policy and resource allocation

Implementation steps

- Call for Expressions of Interest in reforming the ATVET system from the public, social and private sectors
- Prioritise ATVET system reform in the policy dialogues and strategies
- Mobilise to involve all stakeholders in the process of the ATVET reform
- Highlight financing of ATVET as a main objective of the reform
- Launch dialogues with various public, social and private partners to define appropriate financing strategies for ATVET
- Develop the dialogue outcomes into ATVET financing strategies and policies
