PIDA Week has evolved and grown to become the flagship advocacy and marketing event for the PIDA programme and specifically projects in need of financing. The format of the event provides an opportunity to engage and exchange information on PIDA and infrastructure development in general.

The 7th PIDA Week 2022 will be a hybrid (virtual and physical) event which will feature different sessions ranging from the Continental Business Network breakfast session to sessions on the African Continental Free Trade Area, Cybersecurity, the African Single Electricity Market, PIDA Jobs Outlook, Gender-responsive financing for post-COVID-19 recovery efforts and many more. Site visits to the LAPSET Corridor Program Lamu Port, ICT parks in Konza Techno city and the Nairobi Expressway will also be undertaken to take stock of the progress made.
